Previous meeting summary

Values moments

- Jill shared a Who Made Your Day submission for Michelle Green
- Todd – Cabinet conversations increase his bandwidth!

Other

- Tom – NYS mask mandate may expire later this week. If in fact the mandates (all – State, County, SUNY) go away, the College should consider also dropping the mandate.
- Crystal – **Commencement clarification for employees. Add to next week's Cabinet agenda.**
- Stephanie – FYI- (monthly) surveillance testing begins Monday (will use home tests through the Health Office); Snow day clarification-there is no expectation that employees work. If there's an immediate need for information, direct inquiry to the supervisor/administrator is appropriate.
