Health Care Flexible Spending Account (FSA)

A Health Care FSA is an account in an employee's name that reimburses the employee for qualified health care expenses. It allows an employee to fund qualified expenses with pre-tax dollars deducted from the employee's paychecks. The employee can receive cash reimbursement up to the total value of the account for covered expenses incurred during the benefit plan year and any applicable grace period.

If you elect an FSA, you must specify how much you would like to contribute to the FSA for the year. ***Keep in mind, an FSA has a "use-it-or-lose-it" provision!*** That means any unused funds at the end of the plan year will be forfeited. So, be sure to choose an amount that will cover medical expenses but is not so high that you end up with unused funds at the end of the year.

When you are paying for a qualified medical expense that you would like to use your FSA funds for, claims will be paid by automatic claims transfer by the carrier.

- For 2025, the maximum amount that can be contributed to your Health FSA is \$3,300.
- CARRYOVER: the IRS allows employers the option to allow participants to carry over up to \$660 in unused funds into the next year. We have opted to offer this carryover.

For a complete list of qualified medical expenses, visit the IRS website at:

irs.gov/publications/p502#en_US_2013_publink1000178885

Beniversal Card for Health Care FSA

The Beniversal Card allows you to access Medical FSA funds to pay for eligible medical services at qualified merchants. The card may only be used to pay for eligible medical services after they have been provided. The IRS allows one exception: eligibility of orthodontia expenses can be based on either date of payment, date of service or payment due date on coupons/statements.

Payment of a current Plan Year medical service with the card must be completed before the Plan Year ends. Once a new Plan Year begins, only Medical FSA funds associated with the new Plan Year will be available on the card. To access any remaining balance from the prior Plan Year account, submit a claim requesting reimbursement.

You are advised to save all documentation related to medical expenses paid with your card, as IRS regulations require all FSA transactions to be verified for eligibility. If a card transaction cannot be automatically verified, you will be contacted to submit documentation for that transaction. Medical expenses paid with the card should never be submitted for claim reimbursement.

Dependent Care Account

YOU decide how much to contribute to your Dependent Care FSA account based on how much you plan to spend in the upcoming year on adult or childcare expenses. You can contribute up to a maximum of:

- \$5,000 per year if you are married and file a joint tax return or if you file as single or head of household
- \$2,500 per year if you are married and file a separate tax return

The Dependent Care FSA will only reimburse you for the amount that is in your account at the time of the claim.

Who Is a Qualifying Person?

Your child and dependent care expenses must be for the care of one or more qualifying persons. A qualifying person is:

- 1) Your qualifying child who is your dependent and who was under age 13 when the care was provided (but see Child of divorced or separated parents or parents living apart, later);
- 2) Your spouse who wasn't physically or mentally able to care for himself or herself and lived with you for more than half the year; or
- 3) A person who wasn't physically or mentally able to care for himself or herself, lived with you for more than half the year, and either:
 - a. Was your dependent, or
 - b. Would have been your dependent except that:
 - i. He or she received gross income of \$4,200 or more
 - ii. He or she filed a joint return, or
 - iii. You, or your spouse if filing jointly, could be claimed as a dependent on someone else's return.

The Family and Medical Leave Act (FMLA) entitles eligible employees of covered employers to take unpaid, job-protected leave for specified family and medical reasons. Your available paid leave (sick, vacation, personal) will be used during your FMLA leave.

An eligible employee is one who:

- Works for a covered employer;
- Has worked for the employer for at least 12 months;
- Has at least 1,250 hours of service for the employer during the 12-month period immediately preceding the leave; and
- Works at a location where the employer has at least 50 employees within 75 miles.

Eligible employees may take up to 12 work weeks of leave in a 12-month period for one or more of the following reasons:

- the birth of a son or daughter or placement of a son or daughter with the employee for adoption or foster care;
- care for a spouse, son, daughter, or parent who has a serious health condition;
- for a serious health condition that makes the employee unable to perform the essential function of his or her job;
- for any qualifying exigency arising out of the fact that a spouse, son, daughter, or parent is a military member on covered active duty or call to covered active-duty status.

Any paid leave taken for this reason will also be designated as FMLA leave and counted against the amount of FMLA leave you have available to use in the applicable 12-month period.

You can continue your health insurance while on leave and are guaranteed the same or a comparable job after your leave ends. If you contribute to the cost of your health insurance, you must continue to pay your portion of the premium cost while on Family Medical Leave.

WHY DO I NEED...

A Medical FSA?

WHAT IS IT?

A **Medical Flexible Spending Account (Medical FSA)** helps ease the burden of paying for health care by allowing you to use tax-free money to pay for your family's eligible medical expenses. After you set an election during your company's benefits enrollment period, you have access to that full election (all of the money in the account) on the first day of the plan year.

WHAT IS IT USED FOR?

You can use the money in a Medical FSA for qualified medical expenses. This includes coinsurance and copays, your deductible, dental or vision expenses, and over-the-counter drugs and medicines. Check your Plan Highlights for additional information regarding eligible expenses.

HOW DO I SAVE MONEY?

Just like your health insurance premiums, the money for a Medical FSA money comes out of your paycheck before taxes. That's why Medical FSAs (and other accounts like it) are referred to as "pre-tax benefits."

TAX SAVINGS EXAMPLE

You put \$2,000 into your FSA and are taxed at a rate of 30%. You save \$600 annually.*

*For illustration purposes only. Individual tax rates and maximum limits apply.

CALCULATE YOUR SAVINGS

Annual Election x Tax Rate = Annual Savings

\$ _____ x _____ % = _____

WHY DO I NEED THIS PLAN?

There are two main reasons to participate in a Medical FSA:

- **It helps with cash flow.** The full annual election is available at the start of the plan year.
- **It's flexible.** Unlike Health Savings Accounts (HSAs) or Health Reimbursement Accounts (HRAs), a Medical FSA doesn't have any specific insurance requirements (or restrictions), so most people are eligible to enroll.

Take the first step — estimate your expenses. What are you likely to spend on medical expenses for the coming plan year? It's a good idea to be conservative in your estimates; you can't change your election after your company's benefits enrollment period ends unless you have a qualifying event. Be sure to check your Plan Highlights to determine the date restrictions on using the funds in the Medical FSA, and estimate your expenses using our FSA Calculator in BenefitResource.com/resource-center

Don't miss open enrollment! You have a limited time to enroll in a Medical FSA. Confirm with your benefits enrollment representative when and how to enroll.

WHY DO I NEED...

A Dependent Care FSA?

WHAT IS IT?

A **Dependent Care Flexible Spending Account (Dependent Care FSA)** allows you to use tax-free dollars to pay for qualified child day care or adult day care expenses.

WHAT IS IT USED FOR?

The funds in a Dependent Care FSA are for out-of-pocket expenses like nursery school, child day care, before/after school care, and even care for adult dependents. You cannot use the funds in a Dependent Care FSA for any medical purchases or services for your family. For that, you will need to make a separate election for a Medical FSA.

HOW DO I SAVE MONEY?

A Dependent Care FSA gives you the power to set aside money, tax free, from your paycheck to put towards caring for your children and any adult dependents in your care.

TAX SAVINGS EXAMPLE

You spend \$5,000 on day care each year. By enrolling in a Dependent Care FSA, you could save upwards of \$1,500.*

EXAMPLE SAVINGS CALCULATION

$\$5,000 / \text{year} \times 30\% \text{ tax rate} = \$1,500 / \text{year}$
in savings*

CALCULATE YOUR SAVINGS

Annual Election x Tax Rate = Annual Savings

\$ _____ x _____ % = _____

*For illustration purposes only. Individual tax rates and maximum limits apply.

WHY DO I NEED THIS PLAN?

A Dependent Care FSA is a financial tool used to reduce the cost of child and adult dependent care. You set aside tax-free money from your paycheck to put toward services you are already paying for. Ultimately, a Dependent Care FSA is just one more savings tool. Additionally, if you have medical expenses for a dependent, you can consider enrolling in a Medical FSA with a separate election to receive tax-free savings on those expenses.

For more information, visit BenefitResource.com

Beniversal FSA

Flexible Spending Accounts (FSAs) are IRS-approved accounts that allow you to pay for eligible medical and dependent care expenses on a tax-free basis. When you enroll in an employer-sponsored Flexible Spending Account, your contributions are not subject to Federal, FICA and most state taxes. This means you bring home more money in your paycheck.

The two most common FSAs are a **Medical FSA** and **Dependent Care FSA**. You can have both accounts at the same time, but you must enroll in and fund separate elections for each. For individuals contributing to a Health Savings Account, you may have the option to select a Limited Purpose FSA instead of the Medical FSA.

MEDICAL FSA

(MEDICAL EXPENSES FOR YOUR FAMILY)

WHAT ARE THESE FUNDS USED FOR?

Funds can be used to pay for eligible medical expenses provided to you, your spouse, or eligible dependents.

WHEN CAN I START USING THE FUNDS IN MY ACCOUNT?

Your full plan year election is available to use on the first day of the plan year.

WHAT IS AN ELIGIBLE EXPENSE?

You can use these funds to pay for expenses that primarily prevent, treat, diagnose or alleviate a physical or mental defect or illness. Common eligible expenses include:

- Copayments, coinsurance, and deductibles
- Dental care (e.g. exams, fillings, crowns)
- Vision care, eyeglasses, contact lenses
- Chiropractic care
- Prescription drugs and over-the-counter drugs and medicines

WHAT ISN'T ALLOWED?

- You cannot use these funds to pay for expenses that are for personal care, cosmetic, or general health purposes.
- You can also not reimburse expenses from any other source (e.g. insurance).
- You cannot have a Medical FSA if you are enrolled in a Health Savings Account (HSA). However, a Limited Purpose FSA may be available.

WHAT HAPPENS TO FUNDS I DON'T USE?

Check your plan highlights for information about how unused funds are treated.

DEPENDENT CARE FSA

(DAY CARE EXPENSES)

WHAT ARE THESE FUNDS USED FOR?

Funds can be used for a qualified person:

- A dependent child under the age of 13 for whom you can claim a tax exemption, or
- A spouse or dependent who is physically or mentally incapable of self-care and for whom you can claim a tax exemption.

WHEN CAN I START USING THE FUNDS IN MY ACCOUNT?

Dependent Care funds become available as they are deposited from payroll.

WHAT IS AN ELIGIBLE EXPENSE?

Expenses must enable you or your spouse to be gainfully employed, look for work, or attend school full-time. Common eligible expenses include:

- Before & after school care
- In-home dependent care
- Child care
- Nursery school
- Day care in a facility
- Adult care

WHAT ISN'T ALLOWED?

You cannot use these funds to pay for services provided for education, overnight camps, or services provided by the child's parent or other dependents. You also cannot claim a federal tax credit for any expenses reimbursed through your Dependent Care FSA. Consult a tax professional to determine if a Dependent Care FSA or the federal tax credit would be more advantageous.

WHAT HAPPENS TO FUNDS I DON'T USE?

Expenses must be incurred within the plan year. Refer to your plan highlights for deadlines to submit claims.

ELIGIBLE EXPENSES

The type of FSA you choose will determine what you can buy with the funds. Below are sample lists of potential eligible expenses under each account. Refer to your plan highlights to verify whether an expense is eligible.

TYPES OF ELIGIBLE EXPENSES

- **Medical FSA eligible expenses** are qualified medical products and services and over-the-counter (OTC) medical supplies and drugs/medicines (including dental and vision).
- **Limited Purpose FSA eligible expenses** are qualified dental and vision expenses.
- **Dependent Care FSA eligible expenses** are qualified child day care, nursery school and/or adult day care expenses.

Always check your plan highlights to verify if an item is eligible under your plan. To search for more eligible items, visit BenefitResource.com/eligible-expenses

BEGIN USING YOUR BENIVERSAL CARD

If you have enrolled in an FSA for the first time and the Beniversal® Prepaid Mastercard® is offered, it will arrive in a plain white envelope. Once you receive your card, activate it by calling the number on the activation sticker.

The **Beniversal Prepaid Mastercard** can be used at qualified merchants providing medical products and services (doctors, dentists, medical labs, hospitals, medical supply stores, vision centers, certain drugstores, and retail merchants). A list of these merchants is available on our website. The card also allows for contactless payments through Apple Pay®, Samsung Pay® and Google Pay®.

When using your card, always save your itemized receipts. With an FSA, the IRS requires BRI to verify that 100% of transactions are for eligible expenses. Since some qualified merchants also offer services/items that are not eligible, we may contact you requesting documentation to verify a transaction. Instructions will be provided in the event of a request.

Everyone deserves a Guardian

Every day, Guardian gives 26 million Americans the security they deserve through our insurance and wealth management products and services.

We've partnered with your organization to offer you a range of employee benefits. Inside this pack, you'll find the plans your employer thinks you might benefit from.

Taking care of teeth and overall health

Know your benefits

Your benefits support your physical and financial wellbeing, to help keep you and your loved ones protected.

With Guardian, you're in good hands. We've been delivering on our promises for over 150 years, and we're looking forward to doing the same for you too.

Dental insurance

Taking care of your teeth is about more than just covering cavities and cleanings. It also means accounting for more expensive dental work, and your overall health.

With dental insurance, routine preventive care can lead to better overall health. And you'll be able to save money if any extensive dental work is required.

Who is it for?

Everyone should have access to great dental coverage, which is why we offer comprehensive plans that are available through employers as part of your benefit offerings.

What does it cover?

Dental insurance helps to protect your overall oral care. That includes services like preventive cleanings, x-rays, restorative services like fillings, and other more serious forms of oral surgery if you ever need them.

Why should I consider it?

Poor oral health isn't just aesthetic, it's also been linked to conditions including diabetes, heart disease, and strokes. So, while brushing and flossing every day can help keep your teeth clean, nothing should replace regular visits to the dentist.

Staying healthy

Joe visits his dentist for a routine dental cleaning, to take care of his teeth as well as his overall health.

Oral health is about more than just teeth and gums. It's also essential for a range of other health and wellbeing reasons:

Cardiovascular disease: Some research suggests that heart disease, clogged arteries, and strokes may be linked to inflammation and infections from oral bacteria.

Osteoporosis: Weak and brittle bones may be linked to tooth loss.

Diabetes: Research shows that people with gum disease find it more difficult to control their blood sugar levels.

Alzheimer's disease: Worsening oral health is seen as Alzheimer's disease progresses.

All information contained here is from the Mayo Clinic, Oral Health: A Window to Your Overall Health, www.mayoclinic.com. 2021.

You will receive these benefits if you meet the conditions listed in the policy.

Your dental coverage

PPO plan, you can visit any dentist; but you pay less out-of-pocket when you choose a PPO dentist. Out-of-network benefits are based on a percentile of the prevailing fee data for the dentist's zip code.

EXCLUSIONS AND LIMITATIONS

Important Information about Guardian's DentalGuard Indemnity and DentalGuard Preferred Network PPO plans: This policy provides dental insurance only. Coverage is limited to those charges that are necessary to prevent, diagnose or treat dental disease, defect, or injury. Deductibles apply. The plan does not pay for: oral hygiene services (except as covered under preventive services), orthodontia (unless expressly provided for), cosmetic or experimental treatments (unless they are expressly provided for), any treatments to the extent benefits are payable by any other payor or for which no charge is made, prosthetic devices unless certain conditions are met, and services ancillary to surgical treatment. The plan limits benefits for diagnostic

consultations and for preventive, restorative, endodontic, periodontic, and prosthodontic services. The services, exclusions and limitations listed above do not constitute a contract and are a summary only. The Guardian plan documents are the final arbiter of coverage. Contract # GP-I-DG2000 et al. **PPO and or Indemnity Special Limitation:** Teeth lost or missing before a covered person becomes insured by this plan. A covered person may have one or more congenitally missing teeth or have lost one or more teeth before he became insured by this plan. We won't pay for a prosthetic device which replaces such teeth unless the device also replaces one or more natural teeth lost or extracted after the covered person became insured by this plan. R3-DG2000

DentalGuard Insurance is underwritten and issued by The Guardian Life Insurance Company of America, New York, NY. Products are not available in all states. Policy limitations and exclusions apply. Policy Form # GP-1-DG2000, et al, GP-1-DEN-16

Oral Health Rewards Program

Regular visits to the dentist can help prevent and detect the early signs of serious diseases.

That's why Guardian's Maximum Rollover Oral Health Rewards Program encourages and rewards members who visit the dentist, by rolling over part of your unused annual maximum into a Maximum Rollover Account (MRA). This can be used in future years if your plan's annual maximum is reached.

How maximum rollover works*

Depending on a plan's annual maximum, if claims made for a certain year don't reach a specified threshold, then the set maximum rollover amount can be rolled over.

Plan annual maximum**	Threshold	Maximum rollover amount	In-network only rollover amount	Maximum rollover account limit
\$2,000 Maximum claims reimbursement	\$800 Claims amount that determines rollover eligibility	\$400 Additional dollars added to a plan's annual maximum for future years	\$600 Additional dollars added if only in-network providers were used during the benefit year	\$1,500 The limit that cannot be exceeded within the maximum rollover account

Automatic rollover

Submit a claim (without exceeding the paid claims threshold of a benefit year), and Guardian will roll over a portion of your unused annual dental maximum.

* This example has been created for illustrative purposes only.

** If a plan has a different annual maximum for PPO benefits vs. non-PPO benefits, (\$1500 PPO/\$1000 non-PPO for example) the non-PPO maximum determines the Maximum Rollover plan. May not be available in all states.

Guardian's Dental Insurance is underwritten and issued by The Guardian Life Insurance Company of America, New York, NY. Products are not available in all states. Policy limitations and exclusions apply. Optional riders and/or features may incur additional costs. Plan documents are the final arbiter of coverage. When will I receive my eyewear?

Your eyewear will be delivered to your network provider generally within five business days of order receipt. Special prescriptions, lens coatings, provider frames or out-of-stock frames may delay the standard turnaround time.

Plan Highlights

The following are highlights of the New York State Deferred Compensation Plan.

Tax-deferred benefits

- Federal and New York state income taxes are deferred on contributions to the Plan.
- Contributions and any investment earnings accumulate on a tax-deferred basis until withdrawn and then are taxed as ordinary income.
- Roth (after-tax) contributions are also available.

Contribution levels

- The minimum contribution is 1% of compensation (but not less than \$10 per pay period).
- The maximum regular contribution is \$23,000.
- Contributions must be payroll deducted.
- Additional contributions are available if you are 50 or over or under a Special 457(b) retirement catch-up provision.

Personal assistance

Personal assistance is available through a local Account Executive or the HELPLINE from 8 a.m. to 11 p.m., Monday through Friday, and from 9 a.m. to 6 p.m. on Saturdays (ET) at 1-800-422-8463.

Investment options

- Stable Income Fund, retirement date trusts and an array of other investment options covering each major asset class
- Retirement date trusts are designed to provide diversification and asset allocation across several types of investments and asset classes, primarily by investing in underlying trusts; therefore, an investor is indirectly paying a proportionate share of the applicable fees and expenses of the underlying trusts.

These options use a strategy that reallocates equity exposure to a higher percentage of fixed investments over time. Like other funds, target date trusts are subject to market risk and loss. Loss of principal can occur at any time, including before, at or after the target date. There is no guarantee that retirement date trusts will provide enough income for retirement.

- A self-directed investment account option that allows you to choose from exchange-traded funds (ETFs) and approximately 3,200 mutual funds, for an additional fee. The Schwab Personal Choice Retirement Account® (PCRA) is offered through Charles Schwab & Co. Inc., member SIPC.

Investors should carefully consider information contained in the prospectus and fact sheets, including investment objectives, risks, charges and expenses. The underlying fund prospectus and fact sheets contain this and other important information. Please read them carefully before investing.

For prospectuses of funds or fact sheets within your NYSDCP core account, please call the HELPLINE at 1-800-422-8463 or visit our website at www.nysdcp.com.

You can request a prospectus by calling Schwab's dedicated PCRA Call Center at 1-888-393-PCRA (7272).

Administrative services are supported by an annual per-participant fee and an asset-based fee. The annual per-participant fee is \$20, levied in two installments of \$10 in April and October. The annualized asset-based fee is currently 3.50 basis points (or \$0.35 for each \$1,000 in a Participant's account), levied in two installments of 1.75 basis points in April and October. A Plan for Your Future

Frequently Asked Questions – Voluntary 403(b) Savings Plan

As an employee, you are eligible to participate in SUNY's Voluntary 403(b) Savings Plan. This program provides a way for you to direct additional savings through payroll deduction. This account is 100% owned by you with flexible options and professional investment advisors available at no additional cost.

This plan provides an opportunity to save for retirement on a Traditional (pre-tax) and Roth (after-tax) basis. With the Traditional (pre-tax) option, all contributions plus any earnings accumulated are tax deferred. No income taxes are paid until you receive distributions from your account.¹ Money invested in the Roth (after-tax) option is taxed when it is deducted from your paycheck and it provides the potential to withdraw earnings on a tax-free basis in retirement with a Qualified Distribution.² You may split your 403(b) contributions between the Traditional (pre-tax) and Roth (after-tax) options, although the combination of any such contributions cannot exceed the annual maximum allowed by the IRS.

Additional information is available at www.suny.edu/benefits/vsp.

2024 Limit if age 50 or over (by 12/31): \$30,500

This plan is set up under Section 403(b) of the Internal Revenue Code. If, through another employer, you contribute to a 403(b) or 401(k) plan, the limit applies to all contributions combined. Contributions to a 457(b) (deferred compensation) plan do not affect contributions to this program.

2. Q: Where can I invest my money?

All investment providers offer financial advisors for individual account assistance at no additional cost. 7. Q: May I convert Traditional (pre-tax) assets to Roth (after-tax)?

A: Yes, if you are eligible to transfer funds from Traditional (pre-tax) assets to Roth (after-tax). Please note the amount converted is taxable in the year of conversion; there is no tax withholding on the conversion and the election to convert is irrevocable. For participants over age 59 ½, Roth (after-tax) assets must be in existence for at least 5 years in order to be considered tax-free as a "Qualified Distribution."

8. Q: May I roll money from other plans into this plan?

A: Yes. If you are eligible to transfer funds from a previous employer's plan or Individual Retirement Account (IRA), you may roll the money into this plan. Contact your investment provider for assistance.

9. Q: Are there other ways for me to save for retirement through SUNY?

A: You may also be eligible to participate in the NYS Deferred Compensation Plan (NYSDCP, a section 457 plan) for pre-tax and after-tax savings through payroll deduction (www.nysdcp.com, **800-422-8463**). Note: Certain community colleges may offer an alternative 457 plan option other than NYSDCP.

Because section 457 plans are set up under a different section of the IRS code than SUNY's 403(b) program, the amount you can contribute and withdraw are separate and distinct. You may choose whether to participate in NYSDCP, SUNY's 403(b) Savings program, or both. Contribution limits do not offset between 403(b) and 457(b) plans, therefore, maximum annual contribution limits apply to each plan separately.

How do Traditional (pre-tax) and Roth (after-tax) compare?

	Traditional (pre-tax) option	Roth (after-tax) option
How do taxes impact my contributions?	Pre-tax contributions accumulate tax deferred. You do not pay federal or state income tax on the contributions when they are made, therefore, no tax withholding applies.	After-tax contributions are eligible to accumulate tax-free however federal and state income taxes apply to the contributions in the year they are made, therefore tax withholding will apply.
When can money be withdrawn?	Pre-tax contributions may be withdrawn upon separation from service, attainment of age 59 1/2, death, disability, or severe financial hardship.	After-tax contributions may be withdrawn upon separation from service, attainment of age 59 1/2, death, disability, or severe financial hardship.
How are my distributions taxed?	Contributions (plus earnings) are taxed at the time you withdraw the funds. Usually this will be during your retirement, when you may be in a lower tax bracket.	Qualified Distributions ² of contributions and earnings are tax-free, which can help you balance against tax rates that increase over time.
What are the federal tax implications?	Withdrawals are subject to federal income tax. If you are under age 59 1/2, you may be subject to an additional 10% tax.	Distributions available as noted for pre-tax, however, taxes would apply to earnings distributed if not a Qualified Distribution.
What are the state tax implications?	Your liability for state income taxes will depend upon the laws of the state in which you live at the time of withdrawal. Current NYS law excludes the first \$20,000 of income aggregated per year from certain pension and annuity programs, including 403(b) savings plans, from taxable income if the recipient is at least age 59 1/2.	Your liability for state income taxes will depend upon the laws of the state in which you live at the time of withdrawal. Qualified Distributions of contributions and earnings are both Federal and NYS income tax-free.

Need help deciding?

Consider a Roth 403(b) contribution if you:	Roth 403(b) contribution benefits:
Are not eligible to make Roth IRA contributions because of high income.	The Roth option does not have adjusted gross income (AGI) limits.
Would like to make Roth contributions greater than the Roth IRA limit.	In 2024, the contribution limit for a 403(b) account (\$23,000) is higher than the limit for a Roth IRA (\$7,000), letting you increase your after-tax retirement savings.
Feel confident your retirement income needs are met and want to leave a potential tax-free legacy.	Assets may be passed along to your beneficiaries income-tax free.
Would like to help protect retirement assets from potential tax consequences.	Having both pre-tax and after-tax assets in retirement accounts may provide a hedge against the uncertainty of future tax rates.

Is the Roth 403(b) contribution option right for you?

While it's difficult to predict what your future tax situation may be, you'll want to estimate as best as you can, taking into consideration the best choice for your current tax circumstances and how they may change over time. You may want to consult your tax advisor.

If you expect your tax rate during retirement will be:	Your preferred option may be:
Higher than your current rate	Roth (after-tax) contribution option. Since you already paid taxes on Roth contributions, qualified distributions are tax-free.
Lower than your current rate	Traditional (pre-tax) contribution option. While this money is taxable, you expect to benefit by being in a lower tax bracket during retirement.
Same as your current rate	Either or both.

Note: Roth 403(b) contributions are included in your maximum contribution limits, plus any catch-up limits, if applicable.

Individual circumstances will impact the decision on whether to direct retirement contributions to Traditional (pre-tax) or Roth (after-tax) contributions for optimal planning results. There are also important distinctions between Roth IRA's and Roth Retirement Plan features. Please consult with one of the approved investment providers or a qualified tax advisor for any additional assistance with what would be the best savings options for you.

¹ Withdrawals of Traditional (pre-tax) assets prior to age 59½ are subject to ordinary income tax and a 10% penalty may apply. This additional tax does not apply if you separated from service in the year you attain age 55 or if older, if you are receiving a lifetime income, or in cases of death, disability, or significant unreimbursed medical expenses.

² Qualified Distributions of Roth earnings are distributed tax free no earlier than five years after contributions were first made. You must also meet at least one of the following criteria: age 59½ or older, distribution due to death, or permanently disability.

Small change now, big milestones later

Boosting your savings by 1% could really add up

Consistency is one of the simplest and yet most important strategies for saving—and one that can help you live the life you deserve in retirement. The beauty of it? It doesn't take much to make a positive impact on your savings. Over time, even the smallest increase can go a long way. See for yourself in the following example.

See how much persistence can pay off

This hypothetical example assumes an annual salary of \$50,000, a contribution rate of 1% and an annual salary increase of 1%. The example shown also assumes a 6% annual rate of return on investment. It does not represent the actual performance of any TIAA account, nor does it reflect expenses or taxes, which would reduce performance. Total returns and the principal value of the accounts will fluctuate, and yields may vary. This chart cannot predict or project investment performance.
