

# MVCC 2014 GRADUATE FOLLOW-UP SURVEY

This report summarizes the results of Mohawk Valley Community College's Graduate Survey.

There were 1041 graduates (Aug '12, Dec '12 and May '13), who received a total of 1058 degrees. This report was prepared in the Spring of 2014 by the Office of Institutional Research and Analysis.

Notes:

- 1) The survey was sent out by mail in May and again in July 2013. The survey did not reach 14 of the graduates due to incorrect addresses/phone numbers.
- 2) The term "Respondent" does not necessarily indicate someone who actually filled out a questionnaire. The information actually comes from three sources:
  - a) There were 226 survey returns, including the information received via telephone calls ( 21.7 % return rate).
  - b) National Student Clearinghouse to track transfer students.
  - c) Websites for certifications used to verify status.
  - d) Other web resources

Data in questions 3, 10, and 11 includes 206 additional students who were tracked in this fashion. (30% rate for information about graduates)

- 3) The list of employers in Part 2 only includes those of students in "related" occupations, although the salary is the median of all those who volunteered their income. An asterisk (\*) in the salary information indicates that fewer than three graduates reported their annual salary.
- 4) Percentages are based solely on non-blank values.

Comments

*A general studies major helped me take a variety of classes and decide which field of study interested me the most.*

*a.) workign on aircraft b.) shop time*

*As a general studies major, I was able to take my core curriculum, which was full satisfied upon my transfer. This allows me to focus solely on my concentration.*

*As my major was in the Arts I enjoyed all of it, the people and work, tho I beilieve there could have been alot more deverse class opitions for Arts students, along with better equipment.*

*Enjoyed the Anatomy + Physiology Labs*

*Everything about my major was great.*

*Felt that the content was relative and current; felt prepared for NCLEX exam. Unpleased with scheduling and availability of courses and number of seats class allowed. Had to take a lot of time off of my full-time day job to attend mandatory requirements*

*Good stepping stone*

*I enjoyed my nursing lectures with the exception of last year instructor who I felt was inadequately prepared to teach nursing lecture and lab.*

*I liked the psychology involved & the relating of cognitive/psychological concepts to problems for solving.*

*The best thing I enjoyed about my major was how easy my classes were to schedule and attend around my work schedule. I sincerely enjoyed every class. No improvement - at least not from my point of view.*

*What I liked best was that it gave me a chance to explore many different subjects in the hopes that I would find a successful career .*
